

SUBJECT

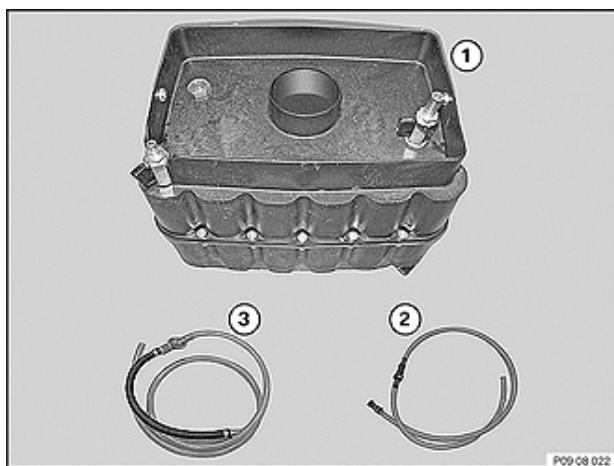

Diesel Exhaust Fluid (DEF) Extractor/Filler

MODEL

E70 and E90 with M57Y

SITUATION

Distribution of the following tools will be through the Automatic Tool Shipment Program. Additional tools may be purchased through your PDC. All prices in this bulletin are introductory prices and are only valid during the Automatic Tool Shipment.

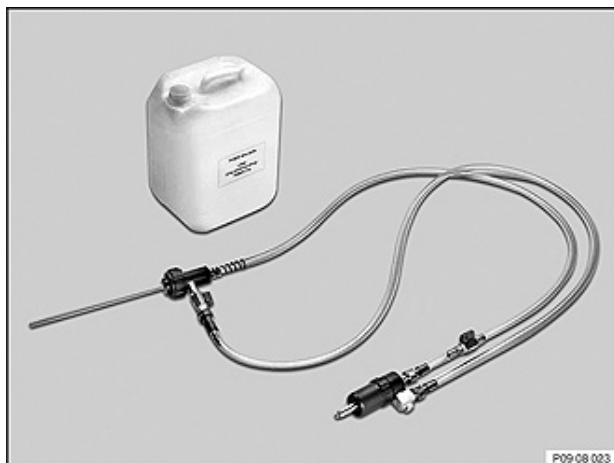

DEF Extraction Unit

Order P/N 81 39 2 153 908

Price \$300.29

The Diesel Exhaust Fluid (DEF) Extraction Unit is used to remove the DEF if service is required. The extraction unit utilizes shop air and the Venturi principle to create a 0.8 bar vacuum. Refer to SI B16 01 09 and repair manual sections 16 19 070, 16 19 060, and 16 19 006 for details.

1. Vacuum box
2. Extraction hose
3. Venturi hose

DEF Fill Unit

Order P/N 81 39 2 153 909

Price \$328.00

The DEF Fill Unit is used to replace the Diesel Exhaust Fluid after servicing. The fill unit utilizes gravity and a vapor recovery process. Refer to SI B16 01 09 and repair manual sections 16 19 070, 16 19 060, and 16 19 006 for details.

WARRANTY INFORMATION

Refer to Parts Information bulletin PIB06 03 02 for tool warranty details.
