Year One Of The 1.  
The all-new 2008 1 Series Convertible.

## 1 Series Convertible Product Ordering Guide

Confidential information for use by authorized BMW centers. Please note: images shown are low resolution. Due to color monitor and printer capabilities, colors shown may not appear on screen and print out accurately. Vehicle images in this Product Ordering Guide booklet may not be U.S. spec.

## Everything below you. Nothing above.

The all-new BMW 1 Series Convertible is your invitation to enjoy the delights of driving in the open air, combined with world-class style and spirited BMW performance.

A spiritual descendant of the world's first sports sedan, the 2002, the 1 Series is contoured and compact, with sensuous curves and a strong shoulder line. This sporty softtop offers a magnificent, fuel-efficient inline six-cylinder engine, and a 6-speed transmission for quick off-the-line response. Lightweight construction, an aluminum front suspension and near-perfect 50/50 weight distribution ensure that its quick acceleration is matched by tight and agile handling. The large, fade-resistant anti-lock brakes, enhanced with DSC

brake features such as Brake Drying and Brake Fade Compensation, quickly and confidently bring it to a full stop.

The sport-styled interior is inviting, with its quality construction and rich materials, such as the optional Boston Leather upholstery with Sun-Reflective Technology. Also like the 2002 before it, the 1 Series Convertible offers seating for four with a practical, remarkably spacious trunk that holds two golf bags – even with the top down.

The standard power softtop with heated glass rear window takes just 22 seconds to raise or lower – making the 1 Series Convertible one of the easiest, quickest and most enjoyable ways to put the wind in your hair and the world in your rear-view mirror. Liberation was never this much fun.

## Who says practicality can't be stunning?

The 1 Series Convertible exudes powerful style. Its strong shoulder line, long hood and short overhangs emphasize its rear-wheel-drive dynamic. BMW has differentiated the 135i with a full aerodynamic kit that adds a rear spoiler and black chrome-plated exhaust tips, 17" wheels, high-performance brakes, and sport-tuned suspension. By day, a choice of 10 paint colors and gleaming Star Spoke or V-Spoke light alloy wheels catch the light. By night, Corona

headlight-rings announce its arrival, while brilliant LED taillight clusters signal its departure.

Both models, when equipped with the optional Sport Package, receive run-flat performance tires, shadowline trim, bolstered sport seats, and an increased top-speed limiter. The 135i Sport Package is equipped with 18" wheels and an M sport steering wheel; the 128i receives 17" wheels and a sport-tuned suspension.

## Dynamic style meets pure comfort.

Strap yourself into the eight-way adjustable front seats with two-way headrests. Add the Sport Package for highly bolstered sport seats, or the Premium Package for the pleasures of power seats with memory and four-way power lumbar support, as well as Ambiance Lighting, auto-dimming mirrors with digital compass, three-button garage-door opener, and BMW Assist.™

In addition to standard Black or no-cost optional Taupe softtops, the optional Moonlight Black softtop – exclusive to the 1 Series Convertible – is interwoven with silver fibers, to produce a unique shimmery, silvery-black appearance in sunlight. The optional Comfort Access multi-function remote control can be used to lower or raise the softtop from outside the car. And even with the softtop down, BMW's unique Sun-Reflective Technology – included with optional Boston Leather upholstery – deflects the sun's infrared rays, so the surfaces stay cooler. The upholstery, available in five colors, can be combined with a choice of three attractive trims for total personalization.

## Luxurious functionality.

Enter the 1 Series and ignite the engine at a touch without using a key, courtesy of optional Comfort Access. The interior is beautifully crafted with quality materials, such as pearl gloss trim. On the leather-wrapped, multi-function steering wheel, Formula 1™- inspired paddle shifters are automatically included when the optional Sport Package and STEPTRONIC automatic transmission are ordered.

The optional Navigation system provides six programmable keys for easy access to audio selections and phone numbers (if equipped with compatible Bluetooth® wireless communication). Use the optional iPod® and USB adaptor to access songs and playlists from the steering wheel. Optional HD Radio™ and SIRIUS Satellite Radio provide everything a true audiophile could desire.

High performance:  
at the heart of the  
BMW 1 Series.

The 1 Series features two potent engine options to keep every ultimate driving urge satisfied. A 230-hp inline six-cylinder Valvetronic powerplant – capable of 200 lb-ft of torque at 2750 rpm – rockets the 128i from 0-60 in 6.4 thrilling seconds.<sup>1</sup> Under the hood of the 135i, BMW's award-winning twin-turbo 3.0-liter inline six draws on 300 hp, generating 300 lb-ft of torque from 1400-5000 rpm. Using a high-precision, piezo direct fuel injection system, every ounce of fuel is maximized, making the twin-turbo engine more efficient and overcoming the traditionally poor gas mileage of turbocharging.

Both models offer a choice of 6-speed transmissions. The silky-shifting manual comes standard, or choose the optional STEPTRONIC automatic with Adaptive Transmission Control. Whichever transmission you select, innovative engineering makes it possible to enjoy outstanding performance, reduced emissions, and fewer trips to the pump.

<sup>1</sup> 128i with manual transmission; 7.0 seconds with optional STEPTRONIC automatic transmission. 135i with manual transmission, 5.4 seconds; 5.5 seconds with optional STEPTRONIC automatic transmission.

You, the road,  
the sky. One.

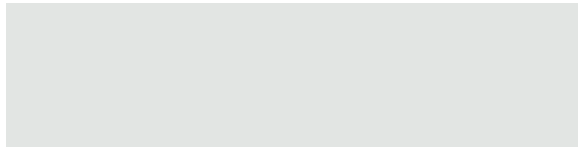

Only BMW could endow the 1 Series with the precise engineering and performance innovations worthy of “The Ultimate Driving Machine.®” It starts with classic BMW rear-wheel drive and near-perfect 50/50 weight distribution for balanced handling when accelerating and braking on straightaways and in turns. An aluminum double-pivot front suspension, and a five-link fully independent rear suspension made of lightweight steel further hone its lightning-quick responsiveness.

Even in the most slippery conditions, BMW's Dynamic Stability Control (DSC)<sup>1</sup> and Dynamic Traction Control (DTC) help keep the 1 Series Convertible stable and going in the intended direction. Optional Active Steering automatically adjusts the steering ratio based on vehicle speed, for more immediate control at low to medium speeds, and more stability at highway speeds.

<sup>1</sup>In the 135i, DSC system is specifically designed for performance-oriented driving.
